STEP 1

Create your CHAT GPT API key.

The screenshot shows the OpenAI API keys page. At the top, there is a navigation bar with icons for Overview, Documentation, API reference, Examples, and Playground. Below this, on the left, is a sidebar with sections for ORGANIZATION (listing 'lemlist' and other options like Settings, Usage, Members, and Billing) and USER (listing API Keys). The 'API Keys' section is highlighted with a green background. On the right, the main content area has a heading 'API keys' and a note about secret API keys. A large blue circle highlights the 'Create new secret key' button at the bottom. A blue bracket on the right side groups the 'API keys' heading and the note about secret API keys.

Your secret API keys are listed below. Please store them in a secure place after you generate them.

Do not share your API key with others, or else your account may be compromised. Protect the security of your account, OpenAI found that many accounts have leaked publicly.

I'm going first. My card is “volcano.”

The five extra words on my card are eruption, crater, magma, gas, and lava.

Okay, here goes: Big, steep, hill of red-hot rocks.
